

## REPORT OF STIPULATIONS

On August 27, 2008, at 10:00 a.m., a prehearing conference regarding Docket No. 2008-196-E was held in the Hearing Room of the Public Service Commission of South Carolina. The following persons were present for the prehearing conference: Jocelyn Boyd, Hearing Officer; Belton T. Zeigler, Esq., K. Chad Burgess, Esq., and Mitchell Willoughby, Esq., all representing South Carolina Electric and Gas Company (SCE&G); Damon E. Xenopoulos, Esq. (via telephone) and Joey Floyd, Esq., both representing CMC Steel South Carolina; Joseph Wojcicki, representing himself; Maxine Warshauer, representing herself; Mildred A. McKinley, representing herself; Nanette S. Edwards, Esq., and Shannon Hudson, Esq., both representing the Office of Regulatory Staff; Pamela Greenlaw, representing herself; Robert Guild, Esq., representing Friends of the Earth; and Scott Elliott, Esq., representing the South Carolina Energy Users Committee.

The parties discussed several issues during the prehearing conference. First, the parties discussed the need for everyone to have an e-mail address for ease and convenience of communication between the commission and the parties. The parties agreed to serve documents that are to be filed with the Commission and served on the parties on the same day via e-mail or, if a party does not have an e-mail address, to serve such party by first-class U.S. Mail. Additionally, hard copies of these documents will also be sent by U.S. Mail or hand delivered to the representatives of Friends of the Earth and the Office of Regulatory Staff.

Next, South Carolina Electric & Gas Company agreed to conduct site visits on Tuesday, September 2, 2008, and on Friday, September 5, 2008. On September 2, 2008, Mr. Steve Burns, Chief Nuclear Officer for SCE&G will be present to conduct a briefing

and to answer questions for the parties who attend this site visit. On September 5, 2008, SCE&G will conduct a second site visit for Mr. Guild and a representative of Friends of the Earth. SCE&G and Mr. Guild will coordinate the details (e.g., time of the visit, etc.) of the September 5, 2008, site visit. Mr. Steve Burns will not be present at the September 5, 2008, site visit.

Finally, on August 28, 2008, SCE&G will provide a copy of its discovery responses prepared as of August 27, 2008, to all parties of record.

Respectfully Submitted,

Jocelyn Boyd  
Hearing Officer
